## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with E. Russell Tarleton (Reg. No. 31,800) on April 25, 2005.

The application has been amended as follows:

In claim 18, line 1, the phrase "claim 17" has been changed to --claim 16--.

### *Allowable Subject Matter*

2. Claims **1,3-11,13-16 and 18** allowed.

3. The following is an examiner's statement of reasons for allowance: the prior art fails to disclose a control signal for controlling a means for correction of an electron beam scanning the screen line by line, the control signal comprising the combination (or the addition) of the following curves:

a constant level, determined by a first parameter;

two half  $X^n$  curves located on either side of the center of the second curve, a common origin of the half  $X^n$  curves located at the center of the curve and the maximum

values of the half  $X^n$  curves at the ends of the line determined by a second and a third parameter respectively,

a double-top curve with a continuous derivative formed by at least two humps placed end to end and located on either side of the center of the double-top curve, each hump having a null derivative at its top, and each minimum or maximum value of the curve set by a respective parameter, as in claims **1, 10 and 16**;

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paulos M. Natnael whose telephone number is (571) 272-7354. The examiner can normally be reached on 10:00am - 6:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Miller can be reached on (571)272-7353. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
